The final Test Of English

The worst day, the unforgettable moment which stays black and painful in the Algerian history and memory forever? On April the 11th 2018, Algerians awake to hear about one of the deadliest disasters ever in North Africa. A military illushine airplane slammed into the earth seconds after taking off from the military base in boufarik resulting in 257 victims all which belong to the national army and were in **their** way to Tindouf district along with their relatives and 10 others from the polizario.

After a while, National channels were showing live pictures of the black thick smoke coming from the field **where** the airplane crashed. A number of ambulances and the Red Crescent were striving to save some people if there any. Images of dead thrown bodies were also shown. The ministry of defense said that the cause behind this crash is still unclear and the investigation will be launched to know the causes of this disaster.

From Telemcen to Annaba, from Chlef to Tamanraset, from Algiers to Oran. Several families cried the victims and prayed Allah to save their lives in paradise. **They** also showed a great solidarity and unity with the victim's parents. Today, One year after the disaster, several Algerians are calling their government to reveal the truth of the crash of the military airplane sooner.
