Text:

Child labour is the crime to humanity. It has become a curse to the society and big issue preventing the country growth and development. Childhood is the most memorable period of the life **which** every child has right to live from birth. Children have full rights to play with friends, go to school, feel the parent's love and care and touch beauty of the nature. However, just because of the people's misunderstandings (parents, owners, etc), children are forced to live adults' life. They are forced to arrange all the resources for life survival in their childhood.

Parents want to make children very responsible towards their family in their early childhood. **They** do not understand that their kids need love and care; they need proper schooling and play with friends to grow properly. Parents think that their kids are their property; they can use them as they want. But, every parents need to understand that they have some responsibility towards their country too. They need to make their kids healthy in every aspect to make the future of the country bright. Parents should take all the responsibility of the family and let their kids live their childhood with lots of love and care.

The main causes of the child labour all over the world are poverty, parents' irresponsibility, society, low salaries, joblessness, poor living standard and, social injustice, lack of schools, backwardness, ineffective laws which are directly affecting the development of the country. **(Adapted from Internet).**
