Text : My Ideal Friend

A real friend is hard to find . In fact , everybody who shakes hands or smiles with me is not my friend in the real sense. To be a real friend, some essential qualities must be present in a person. He must be selfless , sincere and loving . He must be ready to help his friends through thick and thin . He must be very frank and always ready to tell his friend the defects he has.

I am very lucky to have a real friend at school . He has a lovely personality and charming manners. He is of my age . His name is Ahmed . He lives in a modest house not far from away from my house . I have known Ahmed since I was a little boy and we were admitted in the same school and same class. Ahmed is tall , and he has black eyes and a sharpened nose . He is one of the most clever students of my class. He is very good at English and mathematics and he helps me a lot in my studies. In fact , it is through his efforts that I am a good student .

I have never forgotten those days when I was ill. He was sitting by my bed in a chair talking to me and taking care of me. He refused to go home, and his presence was a source of great consolation and hope. He gave me strength to recover rapidly.

Adapted from the net
